Professional Summary

Motivated B.Tech Computer Science student with a foundational understanding of programming concepts and hands-on experience through academic projects. Familiar with C, C++, and Java, with an interest in software development and cloud technologies. AWS Certified Cloud Practitioner with knowledge of cloud fundamentals and security concepts. Eager to learn, grow technical skills, and contribute to real-world projects in a collaborative environment.

Education

Graphic Era Deemed University, Dehradun, India
Bachelor of Technology in Computer Science and Engineering July 2024 - June 2028
GPA: 7.2
Courses: Operating Systems, Data Structures, Analysis of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases

Skills Summary

- **Programming Languages:** Python, C, C++, Java, SQL
- **Tools & Platforms:** Git, VS Code, MySQL, Spyder, Arduino, AWS
- **Soft Skills:** Leadership, Event Management, Content Writing, AutoCAD, Time Management

Internships & Experience

Power BI Intern Cognify Technologies, Dec 2025 – Jan 2026

- Created interactive dashboards and reports using **Power BI**.
- Performed data cleaning, transformation, and basic **DAX** calculations.
- Analyzed datasets to derive insights and present findings effectively.

Content Writing Intern Odisha Development Management Programme (ODMP), Oct 2025 – Nov 2025

- Developed original content focusing on clarity, creativity, and engagement.
- Conducted research to support content development across assigned topics.
- Demonstrated strong professionalism, communication, and collaboration skills.

Projects

Rule-Based Verification and Validation System — Java
• Developed a rule-based verification and validation system using Java
Technologies: Java, OOP, Conditional Logic, File Handling College Project

Fraudulent Telephonic Pattern Detection System — Design & Analysis of Algorithms
• Developed a system to identify suspicious telephonic activity patterns using algorithmic analysis techniques.
Technologies: DAA, Searching & Sorting Algorithms, Pattern Analysis College Project

Certifications

- **Graph-e-thon** Participation, Feb 2026
- **AWS Cloud Practitioner** Amazon Web Services (AWS), Oct 2025
- **AWS Knowledge: Cloud Essentials (Training Badge)** Amazon Web Services (AWS), Oct 2025
- **DevOps on AWS** AWS Training Online, 2025
- **Foundations of Cybersecurity** Google (Coursera) [Certificate], May 2025
- **Excel** OneRoadmap, Jul 2025
